Exclusively
of the
National
Parks Region.

Dryas octopetala

If it grows wild,
remember

Frank H. Rose,
Native Evergreens,
1020 Poplar St.,
Missoula, Montana.

PINK FAIRY SLIPPER

A prized native orchid

Calypso bulbosa

Showy, delicate pink flowers with spotted sack. A single, ovate leaf. Plant bulb barely covered in soil rich in moss or rotted wood in a damp, well drained spot, partly shaded.

Pink. 3-5" pH-5-7

20¢

June.

BLUE CAMAS

Camassia quamish doz. 35¢

5¢

A handsome and showy plant.

Grows naturally in meadow type very wet in winter and spring, but very dry in summer. Adaptable, though, to any garden and perfectly hardy.

Blue. 18" pH-5-7

May-June

HAREBELL

Campanula rotundifolia

20¢

Clumps of slender, graceful stems with many bright blue bells. A delightful plant that should be in every garden or rockery. Prefers moderate moisture and a good loam or rocky soil in cool sun or part shade.

Blue. 10-15" pH-5-6 All summer

NATIVE PLANTS EXCLUSIVELY

Plants packed in moist sphagnum, cultural directions furnished, and safe arrival guaranteed.

(Sample page from our new catalogue.)

PHOTOGRAPHS of many plants of this region may be found in "Plants of Glacier, Yellowstone and Rocky Mt. National Parks". Order from Supt. of Documents, Wash. D.C. \$1.00 postpaid.

YOUR CATALOGUE SUBSCRIPTION!

Has it expired?

I am revising my catalogue adding more information about WESTERN AMERICAN ALPINES. It will be ready next fall; not another like it. It will be sent to all who have ordered during the last three years, to others ONLY UPON REQUEST. Don't miss it. In the meantime, prices are maintained as shown in any list you may now have.

Have I your correct address?
What is your special interest?
What may I send you? Write.

This space reserved for
EXPLETIVES
if I do not hear from you.

Invariably, when looking for a specific plant species, I see many others equally as good for garden purposes for which I do not, at the time, have a market. I will collect these for you, my selection, at 5¢ each, 3 of a kind for 10¢. Postage or express extra. Send for any quantity. Please give me some idea of the site available for the plants.

For seeds or plants of species native to the Glacier and Yellowstone Park region, remember

Frank H. Rose
Native Evergreens,
Missoula, Montana

HIGH MOUNTAIN ALPINES

from above 10,000 feet.
